

# EQUITRAC OFFICE AND EQUITRAC EXPRESS

Reduce and recover your  
document output costs

- Reduce the operating costs of all your networked output devices
- Accurately allocate and recover document output costs
- Minimize waste and increase security controls
- Maximize productivity with real time monitoring of networked devices

In today's business climate, cost and profit centres need complete control of document output costs. Document accounting solutions, Equitrac Office and Equitrac Express, provide considerable financial and administrative benefits for networked businesses and public access environments. Accurate interdepartmental or client billing mechanisms offer secure retrieval and flexible payment options for public access users. Equitrac delivers increased up-time through real-time device management and safeguards your data with sophisticated and robust security controls.

*Nashuatec's unique approach, links people with knowledge and expertise, combining our wide experience of innovative, document related Products and Software Solutions with our world class Business and Professional Services to deliver the best Total Document Solutions for your business.*

TOTAL DOCUMENT SOLUTIONS

**Gain complete visibility and control of your document output environment**

Equitrac Office and Equitrac Express are document accounting solutions that empower Administrators to recover costs and reduce the Total Cost of Ownership (TCO).

Equitrac solutions provide a window on network print activity, showing a complete audit trail of users' jobs, all verified and logged. Reports and graphs can be generated identifying all document related network traffic, enabling precise cost allocation, secure document retrieval and direct charging where appropriate.

**Increase output efficiency**

Equitrac Office reduces operating and output costs by ensuring documents are printed on the most cost-efficient of available network devices via automated rules-based job routing.

**Recover your document output costs**

Equitrac Express makes public access charging and payment easy by capturing users' print and copy jobs in a simple intuitive interface designed to facilitate point of sale cost recovery.

Equitrac Office provides similar cost recovery benefits to the general office by allowing hierarchical job coding and billing on a single user, departmental or client basis.

**Secure document release via 'Follow You Printing'**

Users can have the convenience of collecting their documents anytime, anywhere on their organization's Local Area Network (LAN) or Wide Area Network (WAN) by sending their documents to virtual printer queues. This flexible 'Follow You' feature enables secure document release via login at any location on the network.

**Complete control of a secure environment**

IT Administrators can provide a secure document environment by integrating Equitrac's swipe card options with existing network policies and systems.

Secure document environment prevents unauthorized access and minimizes output wastage

Public access users can release documents using flexible payment options including swipe or smart cards

This prevents unauthorized access to all print and copy jobs, minimizing the wastage associated with uncontrolled document output. In addition, both solutions can establish colour usage limits, lock out users from devices, and enable or disable specific functions on individual MFPs and printers.

**Run your devices at maximum efficiency**

Achieve higher levels of productivity with the real time Device Management Engine and Aficio Counter Manager (ACM). Working together, these powerful features seamlessly monitor the status of your networked devices, reporting on their capabilities, status and paper and toner levels, whilst tracking and recording the output activity of your hardware.

**Outstanding Software and Services**

Improving productivity, workflow efficiency and cost control is easy with Nashuatec. Designed to add value and ensure our devices operate seamlessly and reliably, we cover every aspect of your business from document management, network control and consultancy, to training and unrivalled support.

Equitrac solutions are designed to give you the transparency and control you need to reduce and recover the operating costs of your networked output devices. They will enable you to improve efficiency and maximize productivity in a secure document environment.

**Take total control of your costs and improve document security**
